About Me

I'm a Year 4 student at the Royal University of Phnom Penh majoring in Information Technology Engineering , with a strong passion for web development. I have hands-on experience in building responsive websites using HTML, CSS, JavaScript, and frameworks like Vue.js and React. I also work with back-end tools like Node.js and MongoDB to create full-stack applications.

Skills

- HTML, CSS, JavaScript
- Responsive Design (Mobile-Friendly)
- React.js, Laravel.
- Bootstrap, Tailwind CSS
- MySQL, Apache
- Node.js, Express.js
- RESTful APIs

Education

Study Information Technology Engineering — 2022 - Now

Royal University Of Phnom Penh

I'm currently a year 4 student at Royal University Of Phnom Penh.

Experience

Build Full stack Laravel Project

https://www.travelworldwithme.me/

I developed a full-stack tourism website using Laravel as the backend framework and Blade templates for the frontend. The project includes dynamic features such as:

- Home page with featured destinations
- Province and place-based filtering
- Hotel listings with images, reviews, and ratings
- Search and filter functionality
- User authentication (login/register)
- RESTful API structure for travel data
- Organized using MVC pattern and Laravel routing
- Data stored in MySQL, structured using nested arrays in a service class
- Admin dashboard for managing content

2017- 2019

Build Html, CSS and JS project

https://youtu.be/-md0eE-4Ct8

I created a responsive product listing website using HTML, CSS, and JavaScript. The site includes:

- A clean and modern product grid layout
- Interactive features like "Add to Cart," "Like," and "Share" buttons
- Category-based filtering (e.g., Men, Women, Promotions)
- Fixed header and smooth navigation
- Simple shopping cart system with localStorage
- Responsive design for desktop and mobile devices

2016- 2017
